ABOUT THE AREA

The small town that forms the parish of Es Cubells has one of the most privileged landscape views you will find on the island of Ibiza.

This nucleus is made up of a whitewashed church located on the edge of the cliff and just a few houses, among which we find some restaurants, local bars, small grocery stores, a humble cultural centre and a small children's park.

Es Cubelles is a small refuge whose tranquility remains unalterable all year round, it really doesn't surprise the area call for exclusivity!
